CAREER OBJECTIVE

Results-driven React Developer with 2+ years of experience in building responsive, scalable web applications. Skilled in **React.js, JavaScript, TypeScript, Redux, REST APIs, HTML5, CSS3, Tailwind CSS, Node.js, Express.js** and **Git.** Experienced in developing reusable components, integrating APIs, and delivering high-quality solutions in Agile environments.

EXPERIENCE

React Developer | Althi Solutions **Aug 2024 – Jul 2026**

- Developed responsive and scalable web applications using **React.js,** improving **user experience** and **reducing page load time by 40%.**
- **Led front-end development** of the Business Management Tool (BMT), delivering 10+ enterprise modules including **PDF generation,** Attendance Management, Finance Management, and Employee Management.
- Built **reusable UI components** and optimized client-side architecture, **accelerating feature development by 3×** and **reducing code duplication by 50%.**
- Collaborated with cross-functional teams to integrate **RESTful APIs,** optimize performance, and resolve production issues, **reducing critical bugs by 40%** and improving application stability.

PROJECTS

Business Management Tool (BMT) | React.js, TypeScript, Redux, REST APIs

- Developed a comprehensive business management platform to streamline daily operations and **improve workflow efficiency.**
- Built core modules for **Employee Management, Attendance Tracking, and Payroll Processing** to automate workforce administration and reduce manual effort.
- Implemented **Inventory, Finance,** and Project Management features for **stock control, expense tracking,** task assignment, and progress monitoring.
- Integrated **PDF generation, RESTful APIs,** and **reusable React components** to improve documentation handling, data flow, and application performance.

NAARA | React.js, TypeScript, REST APIs, PostgreSQL

- Built responsive and reusable React components, improving application performance and **reducing development effort by 35%.**
- Optimized document retrieval and API performance, **reducing search response time by 40%.**
- Developed **RESTful API** integrations for document retrieval, metadata management, and user authentication.
- Collaborated with cross-functional teams using **Git and Agile methodologies** to deliver reliable, maintainable, and **high-quality software.**
- Developed a digital archive management system to securely preserve, organize, and provide access to historical documents and records.
- Built **advanced search functionality** using keywords and metadata, enabling users to locate archived documents quickly and accurately.

Dr. Joe Dispenza | React.js, TypeScript, REST APIs, PostgreSQL

- Developed secure user authentication and authorization using **Firebase Authentication** with **role-based access control** (Admin/User).
- Implemented user **registration, login, password management,** and session handling for secure application access.
- Designed and integrated **MongoDB to manage user profiles, books, transactions,** and application data.
- Integrated **Realm Database for offline-first data persistence** and seamless synchronization across devices.

EDUCATION

Master of computer Application , MSUniversity	**2021 – 2022**
Bachelor of science , MS University	**2018**
H.S.C , St. Joseph's Convent HigherSecondarySchool,Nagercoil	**2015**

INTERNSHIP & CERTIFICATIONS

Frontend Development Intern ALO Infotech Completed an intensive hands-on React Web Development program, gaining expertise in building dynamic user interfaces, state management, API integration, and responsive web applications.

SKILLS

Frontend: HTML, CSS, Java Script, Type Script, React, Next JS, Redux, Bootstrap, Tailwind CSS, SCSS.
Backend: Node JS, Express JS, Type Script.
Databases: MongoDB.
Programming Languages: Java Script, Type Script.
Development Tools: Postman, VS Code, Git, GitHub, Code Commit
